Think about this...

- Would you say that you are a “customer” or “shareholder” at Keystone Church?
- In 20 years, do you think that...
  - Keystone will still be proclaiming a grace-encapsulated gospel?
  - Keystone will still be promoting a gospel that cannot be bought by our own efforts?
  - Keystone will still be exporting a biblical gospel to the ends of the earth?
  - If you said “yes” to the above, who all do you think will have had a role in that?
- How long have you been regularly attending Keystone? \_\_\_\_\_ If more than 4 years, have you become a member? \_\_\_\_\_ If not, why not?
  - Who are you counting on to help make sure that this fellowship continues to proclaim, promote and export a biblical gospel?
- If you are to “wolfproof” your own life too, are you a Berean (Acts 17:11) when it comes to the gospel influencers you invite to speak/sing to you? What I mean is, do you know your Bible well enough to protect yourself from lies—or do you simply accept as true whatever is said by someone who is a captivating speaker, or was recommended by a trusted friend, or who references a lot of Bible verses?
